WORK EXPERIENCE

✓ **Students' Industrial Work Experience Scheme (SIWES)**

Transmission Company of Nigeria (TCN) Enugu, Nigeria, JULY – DECEMBER 2019.

Technician

Received hands-on training on the application and use of Human Machine Interface (HMI), used in the data analysis of the system operation department, Transmission Company of Nigeria (TCN) Enugu.

✓ **NYSC Program**

SwiftTalk Limited, 3/6 Alhaji Adejumo, ILupeju Industrial Estate, ILupeju Lagos, November 24th, 2021 to November 3rd, 2022.

Website Administrator

In the Software as a Service (SaaS) department of SwiftTalk Limited, I worked with the team of this department as a web engineer. My job cut across a daily posting, editing, and the overall maintenance of the company's websites for day-to-day functionalities. My colleagues and I also carry out other software application-related work.

✓ **Web Engineer**

Web engineer at SwiftTalk Limited (from November 2022 till present).

PROJECTS

- Built a mini mobile-friendly and responsive website – <https://www.eesa5nalists.com.ng> and <https://www.eesa5nalists.com.ng/xyz.php> for final year students of the Electrical Engineering department, Nnamdi Azikiwe University, Awka. (August 2020).
Consistently maintain the features of the website to improve its functionality.
- Developed a prototype website suitable for a construction company, – <https://tcc-peach.vercel.app/> , (May 2022)
- Developed a church website (proposed for St. Anthony catholic church, Alagbado Lagos.), – <https://emmadegreat.github.io/st-anthony-site/> (JULY 2022).
- Developed a network admin login/logout interface that enables the admin to have access to the backend.
<https://emmadegreat.github.io/network-admin-login-page/>
